

REACH – Candidate List

Statement

Amphenol Tuchel Industrial GmbH (hereinafter referred to as ATI), is facing numerous requests referring to the implementation of the EC Regulation No 1907/2006 Registration, Evaluation, Authorization and Restriction of Chemicals (REACH).

ATI is aware about its responsibility and obligations resulting from the REACH regulation as well as of decision ECLI:EU:C:2015:576 of 2015-09-10 of the European Court of Justice, and is actively implementing these.

We are selling solely non-chemical products (articles), which do not release any substances under normal or reasonably foreseeable usage; thus ATI has no registration obligations so far.

We are aware of the candidate list with 174 substances of very high concern (SVHC) as published by the European Chemical Agency (ECHA) – latest update July 7th 2017.

In order to comply with the REACH information obligation according to art. 33, we have contacted our suppliers for information concerning the possible content of these SVHC in the delivered materials.

Based on our current state of knowledge, the products we are selling do not contain any of the substances included into the currently published Candidate Lists above a concentration of 0,1% by weight.

We'll keep in touch with our suppliers and we ensure you that we'll meet our obligations under the REACH regulation.

In case of any further questions concerning the REACH regulation in connection with our products please contact your Customer Service representative or send us an e-mail to: industrial@amphenol.de.
