

A Series™ Backshells

Available in AT, ATM and ATP Series

Amphenol Sine Systems' **A Series™ Backshells** quickly and securely snap onto standard AT, ATM and ATP plugs and receptacles (except those with end cap or shrink boot modification) for a higher level of IP protection and help to facilitate securely attaching convoluted tubing.

Potential Markets: Heavy Equipment, Agriculture, Construction, Transportation, Off-Road, Mining, Industrial, Railway, Automotive, Diagnostics, Marine, Water Resistance, Harsh Environments
